Suggestions for Improvement:	You have a solid understanding of planning for a variety of learner needs. Continue to work on pacing of activities and reiteration of content through reflective questioning. Don't forget to let the children process the information and tell you "how" or "why" they know what they know. This will improve your ability to differentiate for them also.
Overall Rating:	Proficient
Do you believe this practicum student has the knowledge, skills, and attitude required to become an effective student teacher?	Yes
General Comments:	For not having the foundation courses of EDU 320 and EDU 301 you've done very well in this practicum. You're baseline in understanding of the teaching learning process is quite high for where you are at in this process. I'm looking forward to your continued growth and ability to reflect on your own practices.
